

– Ash's Pokedex

In the anime, Ash's Swadloon recently evolved into Leavanny. In Japanese, its name is "Hahakomori", and it goes "Haha". It's a pun on the Japanese word for "mother", because it's the Nurturing Pokemon, but from an English-speaking person's view, it sounds like Leavanny is laughing. Leavanny likes to make clothes out of leaves for other Pokemon. Burgh's Leavanny made leaf-clothes for Ash's Leavanny when it was a Sewaddle, and now that it evolved, it's making clothes for Ash and Iris' Pokemon.

Stat-wise, it has good Attack and decent Speed, and it can learn pretty good physical Grass and Bug moves like Leaf Blade and X-Scissor.
